

# DISCOVER ICARUS

"ALL LIMITS ARE SELF IMPOSED."

**ARCHITETTURA SONORA** put 70 years of experience in R&D to create the **ICARUS FAMILY** from scratch, offering you unparalleled performance in an refined design and stylish materials, a NEW PARADIGM of sound that is setting a milestone in home pro-audio.

The **ICARUS** family of products has been conceived to provide a global acoustic solution: the clean lines, the customizable and premium finishes, the modularity and the use of the most durable and resistant materials make this family of products very versatile and reliable to satisfy any acoustics and design requirement without compromising sound quality both indoor and outdoor.

## EXPLORE ICARUS\_ FAMILY

ARCHITETTURA SONORA OFFERS A NEW RANGE OF HIGH-PERFORMING AUDIO SOLUTIONS FOR INDOOR OR OUTDOOR

ICARUS\_STAND-ALONE

ICARUS\_SUB

ICARUS\_WALL

ICARUS\_MULTISTAND

ICARUS\_MULTIGROUND

ICARUS\_MULTIWALL

ARCHITETTURA SONORA

The concept behind the **NEW PARADIGM** of sound set by the new ICARUS Family is best represented by the introduction of the "ICARUS\_stand-alone" model, the **first ALL-IN-ONE SYSTEM** of this kind offering and extra wide coverage in a visually elegant and refined audio system, seamlessly integrating with any design or space without compromising sound quality.

"ICARUS" is composed by a high performing and extremely compact subwoofer supporting a metal frame with two satellites that can be calibrated in terms of emission width thanks to their adjustable mechanics; this ultra-compact system delivers a crystal-clear sound produced by the two adjustable 3,5" satellites supported by a deep, uncompressed bass, even at high output levels, released by its 8-inch woofer.

The **ICARUS\_STAND-ALONE** was conceived and designed to meet any acoustic need, from a contemporary living space to a patio, and also for total outdoor marine environments by choosing the stainless steel 316L Marine Grade metal parts featured in the wide optional offer.

## ICARUS\_STAND-ALONE

ARCHITETTURA SONORA

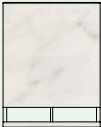

**Dimensions:** 166,1h x 27 Øcm (65.39h x 10.62 Ø inches)

**Weight:** 24kg (53 pounds) - Satellite 2,5Kg (5,5 pounds) - Sub 16,5Kg (36,4 pounds)

## SPECIFICATIONS

Speaker Type:	2 x 3,5" Wide Band	8" Woofer
Nominal Impedence:	4Ω	8Ω
Frequency Range:	40-20.000Hz (-6dB)	
Sensitivity (1W - m)	87 dB/W/m	
Crossover:	DSP needed	
Recommended amplifier power:	60W (Class D)	250W (Class D)

## BODY MATERIALS

CONCRETE				MARBLE, TRAVERTINE, ALTERNATIVE STONES				
								
								
Gray	Black	White	Red	White Carrara	Black Marquina	Classic Travertine	Walnut Travertine	Pick your favourite stone

## METAL COMPONENTS MATERIALS (FRAME AND 2 COVERS)

				
Stainless steel 304 Polished (Standard)	Stainless steel 304 Satin	Stainless steel 304 Painted matt black	Stainless steel 316L Marine Grade	Oxidized Brass

The Icarus **NEW PARADIGM of SOUND** is powerfully reinforced by the new **ICARUS\_SUB**, an extremely compact and elegant high performing subwoofer; the ICARUS\_SUB's powerful 8-inch woofer mounted on board emits downwards within the cylindrical body making the subwoofer a perfect omnidirectional low-end source. Because of longer wavelengths, low-end frequencies are able to pass through most obstacles, that is why the **ICARUS\_SUB** has been designed to be easily placed everywhere, indoor and outdoor, hidden or exposed to integrate seamlessly with any design or material due to its extremely elegant and refined design supporting any kind of low-frequency need without compromising sound quality.

This powerful subwoofer has been specifically designed to complete and support the Icarus family satellites but can be very useful with the whole range of AS models, particularly fit to pairing with cylinders considering its design.

## ICARUS\_SUB

ARCHITETTURA SONORA

Dimensions:	34,6 h x 27 $\phi$ cm (13.62h x 10.62 $\phi$ inches)
Weight:	16,5Kg (36,4 pounds) Concrete

SPECIFICATIONS

Speaker Type:	8" Woofer
Nominal Impedence:	4 $\Omega$
Frequency Range:	40-150Hz (-6dB)
Sensitivity (1W - m)	87 dB/W/m
Crossover:	DSP needed
Recommended amplifier power:	250 W

BODY MATERIALS

CONCRETE

MARBLE, TRAVERTINE, ALTERNATIVE STONES

								
Gray	Black	White	Red	White Carrara	Black Marquina	Classic Travertine	Walnut Travertine	Pick your favourite stone

METAL COMPONENTS MATERIALS (LEGS)

				
Stainless steel 304 Polished	Stainless steel 304 Satin	Stainless steel 304 Painted matt black (Standard)	Stainless steel 316L Marine Grade	Oxidized Brass

**ICARUS** is a family of products designed to provide a global acoustic solution both indoor and outdoor; the clean lines, the customizable finishes, the modularity make this family of products very versatile to satisfy any acoustics and design requirement without compromise.

The **MULTI** category (Icarus Multistand/Multiground/Multiwall) denotes a sub-family characterized by the presence of a double 2" diffuser that, thanks to the use of special joints, can be adjusted according to the needs.

The entire MULTI category requires subwoofer support (the ICARUS SUB is recommended, but any other in the AS range would work).

**ICARUS\_MULTISTAND** is the element conceived and designed for indoor environments or for outdoor use on paved floors. Thanks to its stand (with the base matching the finish of the two satellites) the ICARUS\_MULTISTAND can be positioned and moved very easily.

## ICARUS\_MULTISTAND

ARCHITETTURA SONORA

**Dimensions:** 133h x 30 $\phi$  cm (52.36h x 11.81 $\phi$  inches)

**Weight:** 10Kg (22 pounds)

## SPECIFICATIONS

**Speaker Type:** 2 x 2" Wide Band

**Nominal Impedance:** 4 $\Omega$

**Frequency Range:** 150-20.000Hz (-6dB)

**Sensitivity (1W - m)** 83 dB/W/

**Crossover:** DSP needed

**Recommended amplifier power:** 50W (Class D)

## BODY MATERIALS (SATELLITES' BODY AND STAND BASE)

### CONCRETE

### MARBLE, TRAVERTINE, ALTERNATIVE STONES

## METAL COMPONENTS MATERIALS (POLE AND 2 COVERS)

**ICARUS** is a family of products designed to provide a global acoustic solution both indoor and outdoor; the clean lines, the customizable finishes, the modularity make this family of products very versatile to satisfy any acoustics and design requirement without compromise.

The **MULTI** category (Icarus Multistand/Multiground/Multiwall) denotes a sub-family characterized by the presence of a double 2" diffuser that, thanks to the use of special joints, can be adjusted according to the needs.

The entire MULTI category requires subwoofer support (the ICARUS SUB is recommended, but any other in the AS range would work).

**ICARUS\_MULTIGROUND** is the element created for outdoor installations and it can be placed directly in the ground. Thanks to its special stand (with a special stabilizing plate) the ICARUS\_MULTIGROUND can be positioned very easily in the grass or between the hedges.

## ICARUS\_MULTIGROUND

ARCHITETTURA SONORA

Dimensions: 90h x 15ø cm (35.43h x 5.90ø inches)

Weight: 9 Kg (19,8 pounds)

SPECIFICATIONS

Speaker Type: 2 x 2" Wide Band

Nominal Impedence: 4Ω

Frequency Range: 150-20.000Hz (-6dB)

Sensitivity (1W - m) 83 dB/W/

Crossover: DSP needed

Recommended amplifier power: 50W (Class D)

BODY MATERIALS

METAL COMPONENTS MATERIALS (POLE AND 2 COVERS)

**ICARUS** is a family of products designed to provide a global acoustic solution both indoor and outdoor; the clean lines, the customizable finishes, the modularity make this family of products very versatile to satisfy any acoustics and design requirement without compromise.

The **ICARUS\_WALL** is a 3.5" satellite that can be easily installed on wall or ceiling thanks to the plate specifically designed to facilitate mounting and wiring.

Thanks to its peculiar spherical joint the ICARUS\_WALL can be easily directed according to acoustic and spatial needs.

The use of a supporting subwoofer is not mandatory but particularly recommended for the reproduction of music at high volumes or in all those configurations where low frequencies are important.

## ICARUS\_WALL

ARCHITETTURA SONORA

Dimensions:	20 x 11,9Ø cm (7.87h x 4.68Ø inches)
Weight:	3,0Kg (6,6 pounds)

SPECIFICATIONS

Speaker Type:	3,5" Wide Band
Nominal Impedence:	8Ω
Frequency Range:	100-20.000Hz (-6dB)
Sensitivity (1W - m)	86 dB/W/m
Crossover:	DSP needed
Recommended amplifier power:	50W (Class D)

BODY MATERIALS

CONCRETE				MARBLE, TRAVERTINE, ALTERNATIVE STONES				
								
Gray	Black	White	Red	White Carrara	Black Marquina	Classic Travertine	Walnut Travertine	Pick your favourite stone

METAL COMPONENTS MATERIALS (COVER, JOINT, REAR PLATE)

				
Stainless steel 304 Polished (Standard)	Stainless steel 304 Satin	Stainless steel 304 Painted matt black	Stainless steel 316L Marine Grade	Oxidized Brass

**ICARUS** is a family of products designed to provide a global acoustic solution both indoor and outdoor; the clean lines, the customizable finishes, the modularity make this family of products very versatile to satisfy any acoustics and design requirement without compromise.

The **MULTI** category (Icarus Multistand/Multiground/Multiwall) denotes a sub-family characterized by the presence of a double 2" diffuser that, thanks to the use of special joints, can be adjusted according to the needs.

The entire MULTI category requires subwoofer support (the ICARUS SUB is recommended, but any other in the AS range would work).

**ICARUS\_MULTIWALL** is the model designed to satisfy the needs of particular indoor installations. Thanks to its special plate (which makes the wiring very easy) the ICARUS\_MULTIWALL can be easily positioned on walls or ceilings.

## ICARUS\_MULTIWALL

ARCHITETTURA SONORA

**Dimensions:** 27 x 12cm plate (10.62x4.72 inches)

**Weight:** Satellite 4,0 Kg (8,8 pounds)

SPECIFICATIONS

**Speaker Type:** 2 x 2" Wide Band

**Nominal Impedence:** 4 $\Omega$

**Frequency Range:** 150-20.000Hz (-6dB)
